EXAMINER'S COMMENTS

1. The arguments filed on May 16, 2005, in combination with the combination of amendments filed on May 16, 2005, November 9, 2005, and January 18, 2006 obviate the previously cited objections and rejections.
2. The preambles of the claims remaining in the instant application (reciting that the invention is drawn to a quick chill and thaw system, for example) are being given patentable weight since they breathe life and meaning to the claims.
3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Jung et al., Boxall, Floysvik, and Mandel et al. disclose cooled food storage compartments comprising drawers or pans including air flow paths therethrough.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ljiljana (Lil) V. Ciric whose telephone number is 571-272-4909. The examiner can normally be reached on Mondays through Fridays from 10:00 a.m. to 6:30 p.m.
